

SAFETY DATA SHEET

© Carlisle Fluid Technologies, Inc.
PRODUCT RELATED HEALTH DATA SHEET

1. IDENTIFICATION of the SUBSTANCE/MIXTURE and of the COMPANY

1.1 Product identifier

Product Name : LGWA2 Grease
Product Code : Binks Part No. 502375
Product Description : Lubricating Grease.
SDS # : SDS-39 REVISION #: 3.0.1

CHEMICAL FORMULA: Mixture.

CAS NUMBER : Not Applicable.
Article Code : Not Applicable.
GENERAL USE : Lubricant.

DATE REVISED: 10/17/2016 DATE PREPARED: 10/17/2016

1.2 Relevant identified uses of the substance or mixture and uses advised against
Not applicable.

1.3 Details of the supplier of the safety data sheet

Carlisle Fluid Technologies, Inc.

320 Phillips Ave.

Toledo, Ohio 43612-1467

Technical service number 1-888-992-4657

1.4 Emergency telephone number

Emergency Number - INFOTRAC
EMERGENCY PHONE (24 HOURS):
1-800-535-5053

2. HAZARDS IDENTIFICATION

2.1 Classification of the substance or mixture

DPD-classification (Directive
1999/45/EC) : R52/53.

Classification according to Regulation (EC) No. 1272/2008 [CLP/GHS] : The product shall not be classified as hazardous according to the classification and labelling rules for substances and mixtures.

Most serious harmful effects : May cause slight irritation to the skin and eyes. Degreases and dries the skin. Repeated exposure may cause skin dryness or cracking. Persons with a known allergy to Reaction products of bis(4-methylpentan-2-yl)dithiophosphoric acid with phosphorus oxide, propylene oxide and amines, C12-14-alkyl (branched) may exhibit an allergic response to the product.

Classification according to OSHA 29 CFR 1910.1200 and Directive 1999/45/EC [DPD]

The product is not classified as dangerous according to OSHA 29.CFR 1910.1200, Directive 1999/45/EC and its amendments.

Classification : Not classified.

See Section 16 for the full text of the R phrases or H statements declared above.

See Section 11 for more detailed information on health effects and symptoms.

2.2 Label elements

Hazard pictograms : No pictogram.
Signal word : No signal word.
Hazard statements : Causes eye irritation.
: Causes skin irritation.

Precautionary statements

Prevention : Not applicable.
Response : Not applicable.
Storage : Not applicable.
Disposal : Not applicable.

Hazardous ingredients : None known.
Supplemental label elements : Not applicable.

Special packaging requirements

Containers to be fitted with child-resistant fastenings : Not applicable.

Tactile warning of danger : Not applicable.

2.3 Other hazards

Other hazards which do not result in classification

Properties affecting health : Contains Reaction products of bis(4-methylpentan-2-yl)dithiophosphoric acid with phosphorus oxide, propylene oxide and amines, C12-14-alkyl (branched). May produce an allergic reaction.

Principle routes of exposure : Skin, eye.

Skin contact : May cause skin irritation.
Eye contact : Direct contact with eyes may cause irritation.
Inhalation : Not applicable.
Ingestion : Not applicable.

Chronic Effects: not applicable

Medical Conditions Aggravated by Long-Term Exposure: None known.

Target Organs: Skin and eyes.

Signs and Symptoms: Redness and irritation of the eyes and skin. If such a reaction occurs, seek medical attention.

3. COMPOSITION/INFORMATION ON INGREDIENTS

Registration number	CAS/EC Number	Substance	DSD-classification (Directive 67/548/EEC)/CLP-classification (Regulation (EC) No 1272/2008)	w/w%
	12001-85-3 234-409-2	Naphthenic acids, zinc salts	N;R51/53 Aquatic Chronic 2;H411	<2.5
01-211949362 0-38-XXXX	- 931-384-6	reaction products of bis(4-methylpentan-2-yl)dithiophosphoric acid with phosphorus oxide, propylene oxide and amines, C12-14-alkyl (branched)	Xn;R22 Xi;R41 R43 N;R51/53 Acute Tox. 4;H302 Eye Dam. 1;H318 Skin Sens. 1 ;H317 Aquatic Chronic 2;H411	0.1-1 -

Please see section 16 for the full text of R-phrases and H-phrases.

4. FIRST AID MEASURES

4.1 Description of first aid measures

EYE CONTACT : Flush with water (preferably using eye wash equipment) until irritation subsides. Seek medical advice if symptoms persist.
INHALATION : Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur.
SKIN CONTACT : Remove contaminated clothing. Wash skin with soap and water. Seek medical advice in case of persistent discomfort.
INGESTION : Do not induce vomiting. If vomiting occurs, keep head low so that stomach contents do not enter lungs. Wash out mouth thoroughly and drink 1-2 glasses of water in small sips. Seek medical advice in case of discomfort. Get medical attention if symptoms occur.

Protection of first-aiders : No action shall be taken involving any personal risk or without suitable training. When obtaining medical advice, show the safety data sheet or label.

4.2 Most important symptoms and effects, both acute and delayed

Potential acute health effects

Eye contact : May cause slight irritation to the eyes. The product contains small amounts of Reaction products of bis(4-methylpentan-2-yl)dithiophosphoric acid with phosphorus oxide, propylene oxide and

amines, C12-14-alkyl (branched). Persons with a known allergy may exhibit an allergic response to the product.

- Inhalation** : No known significant effects or critical hazards.
- Skin contact** : May cause slight irritation to the skin. Degreases and dries the skin. Repeated exposure may cause skin dryness or cracking.
- Ingestion** : Accidental ingestion irritating to mouth, throat and stomach.

Over-exposure signs/symptoms

- Eye contact** : No specific data.
- Inhalation** : No specific data.
- Skin contact** : No specific data.
- Ingestion** : No specific data.

4.3 Indication of any immediate medical attention and special treatment needed

- Notes to physician** : Treat symptomatically. Contact poison treatment specialist immediately, if large quantities have been ingested or inhaled.
- Specific treatments** : No special immediate treatment required. Treat symptoms.

5. FIRE FIGHTING MEASURES

- 5.1 Extinguishing media**
- Suitable extinguishing media** : Extinguish with powder, foam, carbon dioxide or water mist. Use water or water mist to cool non-ignited stock.
- Unsuitable extinguishing media** : Do not use water stream, as it may spread the fire.

5.2 Special hazards arising from the substance or mixture

- Flammability class** : Not flammable, but combustible.
- Fire retardant method** : Dry chemical, carbon dioxide, foam, or water mist.
- Flash Point** : See Section 9.
- Autoignition Temperature** : See Section 9.
- Sensitivity to Static Discharge** : May be flammable.
- Hazards from the substance or mixture** : No specific hazards.
- Unusual Fire and Explosion Hazards** : No specific fire or explosion hazard.
- Hazardous combustion products** : Can generate harmful flue gases containing carbon monoxide in the event of fire.
- Note** : None.

- 5.3 Protective equipment for firefighters**
- Special precautions for fire-fighters** : Move containers from danger area if it can be done without risk. Avoid inhalation of vapor and flue gases – seek fresh air. Fire-fighters should wear appropriate protective equipment and Self-Contained Breathing Apparatus (SCBA) with chemical resistant gloves.

HMIS RATING: See Section 15.

6. ACCIDENTAL RELEASE MEASURES

- 6.1 Personal precautions, protective equipment and emergency procedures**
- For non-emergency personnel** : No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Wear gloves. Wear safety goggles if there is a risk of eye splash.
- For emergency responders** : Wear gloves. Wear safety goggles if there is a risk of eye splash. Normal protective clothing equivalent to EN 469 is recommended.
- 6.2 Environmental precautions** : Avoid dispersal of spilled material and runoff and contact with soil, water ways, drains, and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, water ways, soil or air). Spills into or upon navigable waters, the contiguous zone, or adjoining shorelines that cause a sheen or discoloration on the surface of the water, may require notification of the National Response Center (phone number 800-424-8802).
- 6.3 Methods and materials for containment and cleaning up**

- Small spill** : Move containers from spill area. Wipe up minor spills with a cloth. Dispose of via a licensed waste disposal contractor.
- Large spill** : Move containers from spill area. Prevent entry into sewers, water courses, basements or confined areas. Contain and absorb spill with sand or other absorbent material and transfer to suitable waste containers. Dispose of via a licensed waste disposal contractor.
- 6.4 Reference to other sections** : See section 8 for type of protective equipment. See section 13 for instructions on disposal.

7. HANDLING AND STORAGE

7.1 Precautions for safe handling

Protective measures

: Use the product under well-ventilated conditions. Running water and eye wash equipment should be available. Wash hands before breaks, before using restroom facilities, and at the end of work.

Advice on general occupational hygiene

: Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas.

Note: See also Section 8 for additional information on hygiene measures.

7.2 Conditions for safe storage, including any incompatibilities

: Store safely, out of reach of children and away from food, animal feeding stuffs, medicines, etc. Keep in tightly closed original packaging. Store in a dry, cool, well-ventilated area. B Store at temperatures below 50 °C. Do not store with the following: Oxidizers.

7.3 Specific end use(s)

Recommendations

: Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers.

Industrial sector specific solutions : Use appropriate containment to avoid environmental contamination.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

8.1 Control parameters

Legal basis

: EH40/2005 Workplace exposure limits. Last amended December 2011. Contains no substances subject to reporting requirements.

8.2 Exposure controls

Appropriate engineering controls

: Wear the personal protective equipment specified below.

Environmental exposure controls

: Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation.

Personal Protection Equipment

Eye Protection

: Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: safety glasses with side-shields.

Skin Protection

Hand protection

: In the event of direct skin contact, wear protective gloves: Type of material and thickness: Nitrile rubber >0,38mm. Penetration time: >8 hours, should be worn at all times when handling chemical products if a risk assessment indicates this is necessary.

Body protection

: Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

Other skin protection: Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

Respiratory Protection : Not required. In case of risk of formation of spray mist, wear respiratory protective equip-

Other protective clothing

ment. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator. Respiratory protection must conform to the following standard, 29 CFR 1910.134.

: Suggestions provided in this section for exposure control and specific types of protective equipment are based on readily available information. Users should consult with the specific manufacturer to confirm the performance of their protective equipment. Specific situations may require consultation with industrial hygiene, safety, or engineering professionals.

Hygienic Practices

: Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.

9. PHYSICAL AND CHEMICAL PROPERTIES

9.1 Information on basic physical and chemical properties

Note: Unless otherwise stated, values are determined at 20°C (68°F) and 760 mm Hg (1 atm). Data represent typical values and are not intended to be specifications.

- Physical state** : Fat.
- Color** : Yellow /Brown.
- Odor** : Characteristic.
- pH** : No data.
- Melting point/freezing point** : No data.
- Initial boiling point and boiling range** : No data.
- Flash point** : > 150° C.
- Flammability (solid, gas)** : No data.
- Burning time** : No data.
- Burning rate** : No data.
- Upper/lower flammability or explosive limits** : No data.
- Vapor pressure** : No data.
- Vapor Density (air=1)** : No data.
- Relative Density** : < 1.0 g/cm³ (25 °C).
- Solubility in Water** : Insoluble.
- Partition coefficient: n- octanol/water** : No data.
- Auto-ignition temperature** : No data.
- Decomposition temperature** : No data.
- Viscosity** : No data.
- Specific Gravity (water=1)** : No data.
- Pour Point** : No data.
- Explosive properties** : No data.
- VOC** : No data.
- Oxidizing properties** : No data.

9.2 Other information : No additional information.

10. STABILITY AND REACTIVITY

- 10.1 Reactivity** : Reacts with the following: Oxidisers.
- 10.2 Chemical stability** : The product is stable when used in accordance with the supplier’s directions.
- 10.3 Possibility of hazardous Reactions** : Under normal conditions of storage and use, hazardous reactions will not occur.
- 10.4 Hazardous Polymerization** : Will not occur.

- 10.5 Conditions to avoid** : No specific data.
10.6 Incompatible materials : Oxidisers.
10.7 Hazardous decomposition products : Under normal conditions of storage and use, hazardous decomposition products should not be produced.

11. TOXICOLOGICAL INFORMATION

11.1 Acutetoxicity

Effects of Acute Exposure (LD50 oral and LC50)

11.2 Acute toxicity estimates

Conclusion/Summary : No known significant effects or critical hazards.

11.3 Irritation/Corrosion

Conclusion/Summary

Skin : The product does not have to be classified. Based on existing data, the classification criteria are deemed not to have been met.

LGWA 2:

LD50 3941 mg/kg.

Eyes : Temporary irritation. The product does not have to be classified. Test data are not available.

Oral : Ingestion of large quantities may cause discomfort. The product does not have to be classified. Based on existing data, the classification criteria are deemed not to have been met.

LGWA 2:

LD50: 5247 mg/kg

Respiratory : Repeated or prolonged exposure to spray or mist may produce respiratory tract irritation. Preexisting respiratory disorders may be aggravated by over-exposure to this product.

11.4 Sensitizer

Conclusion/Summary

Skin : The product contains small amounts of Reaction products of bis(4-methylpentan-2-yl)dithiophosphoric acid with phosphorus oxide, propylene oxide and amines, C12-14-alkyl (branched). Persons with a known allergy may exhibit an allergic response to the product. The product does not have to be classified. Test data are not available.

Respiratory : Sensitization not suspected for humans.

11.5 Mutagenicity

Conclusion/Summary : There are no data available on the mixture itself. Mutagenicity not suspected for humans.

11.6 Carcinogenicity

Conclusion/Summary : There are no data available on the mixture itself. Carcinogenicity not suspected for humans.

11.7 Reproductive toxicity

Conclusion/Summary : There are no data available on the mixture itself. Not considered to be dangerous to humans, according to our database.

11.8 Teratogenicity

Conclusion/Summary : There are no data available on the mixture itself. Teratogenicity not suspected for humans.

11.9 Specific target organ toxicity (single exposure)

Conclusion/Summary : Not available.

11.10 Specific target organ toxicity (repeated exposure)

Conclusion/Summary : Not available.

11.11 Aspiration hazard

Conclusion/Summary : The product does not have to be classified. Test data are not available.

11.12 Information on the likely routes of exposure : Routes of entry anticipated: Oral, Dermal, Inhalation.

11.13 Potential acute health effects

Inhalation : No known significant effects or critical hazards.
Ingestion : No known significant effects or critical hazards.
Skin contact : May cause skin irritation.
Eye contact : May cause eye irritation.

11.14 Symptoms related to the physical, chemical and toxicological characteristics

Inhalation : The product does not have to be classified. Based on existing data, the classification criteria are deemed not to have been met.
 LGWA 2:
 17.08 mg/l (Mist)
 24.85 mg/l (Vapor).
Ingestion : No specific data.
Skin corrosion/irritation : Degreases and dries the skin. Repeated exposure may cause skin dryness or cracking. The product does not have to be classified. Test data are not available.
Eye contact : No specific data.

11.15 Delayed and immediate effects and also chronic effects from short and long term exposure

Short term exposure

Potential immediate effects : Not available.
Potential delayed effects : Not available.

Long term exposure

Potential immediate effects
Eye : Temporary irritation. The product does not have to be classified. Test data are not available.

Respiratory sensitization or skin sensitization : The product contains small amounts of Reaction products of bis(4-methylpentan-2-yl)dithiophosphoric acid with phosphorus oxide, propylene oxide and amines, C12-14-alkyl (branched). Persons with a known allergy may exhibit an allergic response to the product. The product does not have to be classified. Test data are not available.

Potential delayed effects : Not available.

11.16 Potential chronic health effects

Effects of Chronic Exposure : The product does not have to be classified. Test data are not available.
General : The product does not have to be classified. Test data are not available.
Carcinogenicity (IARC, ACGIH) : The product does not have to be classified. Test data are not available.
Mutagenicity : The product does not have to be classified. Test data are not available.
Teratogenicity : The product does not have to be classified. Test data are not available.
Developmental effects : The product does not have to be classified. Test data are not available.
Fertility effects : The product does not have to be classified. Test data are not available.
11.17 Other information : On warming/heating, the vapors emitted may cause irritation to the respiratory organs. May cause coughing and breathing difficulties.

12. ECOLOGICAL INFORMATION

12.1 Toxicity

Aquatic

Conclusion/Summary : The product does not have to be classified. Test data are not available.

12.2 Persistence

Conclusion/Summary : The product does not have to be classified. Test data are not available.

12.3 Bioaccumulation/Accumulation

Conclusion/Summary : Test data are not available.

12.4 Mobility/Persistence in soil

Conclusion/Summary : Test data are not available.

12.5 Results of PBT and vPvB assessment

Conclusion/Summary : No assessment has been made.

12.6 Environmental Fate

Conclusion/Summary : Not available.

12.7 Other adverse effects : Oil products may cause ground and water pollutants.
 German water pollution classification (WGK): 1.

13. DISPOSAL CONSIDERATIONS

The generator of a waste is always responsible for making proper hazardous waste determinations and needs to consider state and local requirements in addition to federal regulations.

13.1 Waste treatment methods

Methods of disposal : Avoid discharge to drain or surface water. Collect spills and waste in closed, leak-proof containers for disposal at the local hazardous waste site. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor.

Hazardous waste : Disposal of this product, solutions and any by-products should at all times comply with the requirements of US Environmental Protection Agency and waste disposal legislation and any regional local authority requirements. This material and its container must be disposed of in a safe way.

13.2 Packaging

Methods of disposal : Uncleansed packaging is to be disposed of via the local waste-removal scheme. Empty, cleansed packaging should be disposed of for recycling. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

13.3 Special precautions : None known.

14. TRANSPORT INFORMATION

	DOT Classification	TDG Classification	Mexico Classification	ADR/RID	IMDG	IATA
UN number	Not Regulated	Not Regulated	Not Regulated	Not Regulated	Not Regulated	Not Regulated
UN proper shipping name	-	-	-	-	-	-
Transport hazard class(es)	-	-	-	-	-	-
Packing group	-	-	-	-	-	-
Environmental hazards	No	No	No	No	No	No
Additional information	-	-	-	-	-	-

The product is not covered by the rules for transport of dangerous goods.

Special precautions for user: Transport within user’s premises: always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code: Not available.

15. REGULATORY INFORMATION

15.1 U.S. Federal regulations : TSCA 8(a) CDR Exempt/Partial exemption: Not determined **United States inventory (TSCA 8b):** All components are listed or exempted.

Clean Air Act Section 112 : Not listed.

(b) Hazardous Air Pollutants (HAPs)

Clean Air Act Section 602 Class I Substances : Not listed.

Clean Air Act Section 602 Class II Substances : Not listed.

DEA List I Chemicals : Not listed.

(Precursor Chemicals)

DEA List II Chemicals : Not listed.

(Essential Chemicals)

SARA 302/304

Composition/information on ingredients :No products were found.

SARA 304 RQ : Not applicable.

SARA 311/312

Classification : Not applicable.

SARA 313

	Product name	CAS number	%
Form R - Reporting requirements	No listed substance		
Supplier notification	No listed substance		

SARA313 notifications must not be detached from the SDS and any copying and redistribution of the SDS shall include copying and redistribution of the notice attached to copies of the SDS subsequently redistributed.

15.2 State Regulations

Connecticut Carcinogen Reporting: None of the components are listed.

Connecticut Hazardous Material Survey: None of the components are listed.

Florida substances: None of the components are listed.

Illinois Chemical Safety Act: None of the components are listed.

Illinois Toxic Substances Disclosure to Employee Act: None of the components are listed.

Louisiana Reporting: None of the components are listed.

Louisiana Spill: None of the components are listed.

Massachusetts Spill: None of the components are listed.

Massachusetts Substances: None of the components are listed.

Michigan Critical Material: None of the components are listed.

Minnesota Hazardous Substances: None of the components are listed.

New Jersey Spill: None of the components are listed.

New Jersey Toxic Catastrophe Prevention Act: None of the components are listed.

New Jersey Hazardous Substances: None of the components are listed.

New York Acutely Hazardous Substances: None of the components are listed.

New York Toxic Chemical Release Reporting: None of the components are listed.

Pennsylvania RTK Hazardous Substances: None of the components are listed.

Rhode Island Hazardous Substances: None of the components are listed.

California Proposition 65: This product does not contain a chemical known to the state of California to cause cancer, birth defect or other reproductive harm. None of the components are listed.

15.3 INTERNATIONAL REGULATIONS :

Chemical Weapon Convention List Schedules I, II & III : Not listed.

Montreal Protocol (Annexes A, B, C, E) : Not listed.

INTERNATIONAL LISTS

National inventory:

Australia : Not determined.

China : Not determined.

Europe : All components are listed or exempted.

Japan : Not determined.

Malaysia : Not determined.

New Zealand: Not determined.

Philippine : Not determined.

Republic of Korea: All components are listed or exempted.

Taiwan : Not determined.

CANADA

WHMIS (Canada): Not controlled under Workplace Hazardous Materials Information System (WHMIS, Cana-

da).

CANADIAN LISTS

Canadian NPRI : None of the components are listed.

CEPA Toxic substances : None of the components are listed.

Canada inventory; DSL/NDSL: At least one component is not listed in DSL but all such components are listed in NDSL.

15.4 HMIS RATING: Health 1, Flammability 1, Reactivity 0

15.5 NFPA RATING: Health 1, Flammability 1, Reactivity 0

16. OTHER INFORMATION

16.1 Full text of abbreviated H statements : H302 Harmful if swallowed.
H317 May cause an allergic skin reaction.
H318 Causes serious eye damage.
H411 Toxic to aquatic life with long lasting effects

16.2 Full text of classifications : None.

16.3 Full text of abbreviated R phrases : R52/53 Harmful to aquatic organisms, may cause long-term adverse effects in the aquatic environment.
R22 Harmful if swallowed.
R41 Risk of serious damage to eyes.
R43 May cause sensitization by skin contact.
R51/53 Toxic to aquatic organisms, may cause long-term adverse effects in the aquatic environment.

16.4 Full text of classifications [DSD/DPD] : This product has been classified in accordance with the hazard criteria of the Controlled Products Regulations and the SDS contains all the information required by the Controlled Products Regulations.

16.5 Guide to Abbreviations:

ACGIH = American Conference of Governmental Industrial Hygienists; CASRN = Chemical Abstracts Service Registry Number; CEILING = Ceiling Limit (15 minutes); CERCLA = The Comprehensive Environmental Response, Compensation, and Liability Act; EPA = Environmental Protection Agency; GHS = Globally Harmonized System; IARC = International Agency for Research on Cancer; INSHT = National Institute for Health and Safety at Work; IOPC = International Oil Pollution Compensation; LEL = Lower Explosive Limit; NE = Not Established; NFPA = National Fire Protection Association; NTP = National Toxicology Program; OSHA = Occupational Safety and Health Administration; PEL = Permissible Exposure Limit (OSHA); SARA = Superfund Amendments and Reauthorization Act; STEL = Short Term Exposure Limit (15 minutes); TLV = Threshold Limit Value (ACGIH); TWA = Time Weighted Average (8 hours); UEL = Upper Explosive Limit; WHMIS = Worker Hazardous Materials Information System (Canada)
